### **REASONS FOR ALLOWANCE**

The following is an Examiner's Statement of Reasons for Allowance: the combination of elements as claimed is deemed to be directed to an unobvious improvement over the prior art as shown by Rockwell and Stumpf (as discussed in the 103 rejection of the previous action). Although Stumpf teaches cooling fins (ribs 32) on the fuel pump, it also teaches a mounting arm (20) mounting the pump to the engine, which is made of a material having low heat conductivity or a heat insulation layer between the mounting arm and the engine (e.g. column 3 line 40-44). This would appear to teach away from having the cooling fins on the mounting arm of Rockwell. Therefore, this improvement comprises a fuel pump having a plurality of heat transfer fins extending externally of a hollow mounting arm,

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, preferably **accompanies** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
